## Wallet Activity: Apple Cash Auto Reload

September 2023

**File name** Apple Cash Auto Reload.csv

**File description** This file contains information about reoccurring payments for apple cash and auto reload.

**Why Apple keeps this information** Apple retains this information for 10 years in order to complete the money transfer for the user and to complete the money top up, which means to top up their Apple Cash account with the money from the bank account (the debit card in Wallet).

| Field Name                | Details                                                                                       |
|---------------------------|-----------------------------------------------------------------------------------------------|
| Amount                    | The transaction amount                                                                        |
| Apple ID Number           | Apple account identifying number                                                              |
| Auto Reload Setting       | The user's action for setting auto reload (e.g., turns on auto-reload, turns off auto reload) |
| Card Number Last 4 Digits | Last 4 digits of the customer's card                                                          |
| Currency                  | Currency of the transaction                                                                   |
| Maximum Amount            | The maximum threshold amount set for auto reload                                              |
| Payment Type              | Payment method used for the transaction                                                       |
